Call+

Call Accounting System

integrates with **SAP**

Call Plus (Call Accounting System)

Call plus is a highly efficient yet trouble-free call tracking system. It provides a detailed record of both national and international direct dialing.

It logs outgoing and incoming calls and even dialing errors for auditing purposes. Phone calls can be tracked by business unit or department, extension line used or even by assigned PIN.

All call logs reports are presented in a user-friendly format that can be forwarded to other business units through e-mail, making call accounting easy, convenient and accessible anywhere.

Call plus automatically computes the cost of a phone call with flexible rate configuration.

With Call Plus, daily call traffic tracking is made effortless!

PRODUCT HIGHLIGHTS

DEVICE COMPATIBILITY

** Can be configured to suit your device.*

COMPREHENSIVE REPORTS

** Provide accurate and detailed call accounting reports.*

MYSQL DATABASE

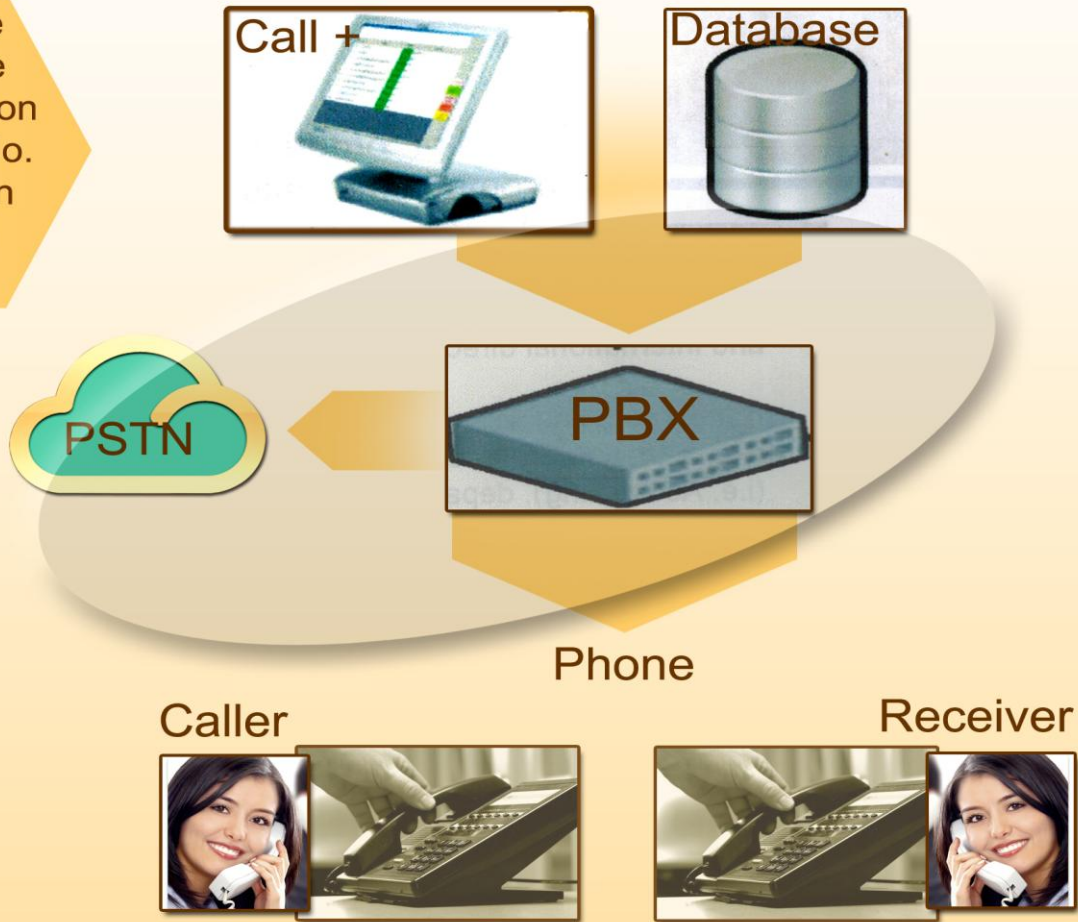

BACK-UP SCHEDULER

** Can back-up recorded data in a specific date and time.*
